We congratulate all the communities across the Country who have been acknowledged as the Best in Class and look forward to continuing to work hard to enhance the lives of those we serve in each of our communities.”

U.S. News evaluated nearly 4,000 communities in one or more of the following categories: independent living, assisted living, memory care and continuing care retirement. U.S. News awards the designation of Best Senior Living only to those communities that satisfy U.S. News’ statistical assessment of performance on consumer satisfaction surveys administered between April 2022 and November 2022, reflecting the viewpoints of more than 200,000 current residents and family members of residents living in thousands of senior living communities nationwide.
